

5mL and 10mL Sterile Transport Tubes

NEW!

Globe Scientific is pleased to introduce two new sterile tubes designed for the safe storage and transport of biological materials. These transparent polypropylene (PP) tubes allow unobstructed viewing of the sample. The vials are shatter-proof and may be exposed to freezing temperatures. They feature clearly printed graduations and white writing surfaces.

- Sterile
- DNase/RNase free
- Tubes are manufactured from virgin polypropylene.
- Screw caps are polyethylene (PE)
- 2-1/4 turn thread design for super fast opening and closing
- Tubes are self-standing with conical bottom (5mL) or round bottom (10mL)
- Printed graduations
- White writing surface

5mL Polypropylene

- Tube dimensions: 17 x 60mm

Item #	Description	Unit
6104SP	5mL transport tube with attached white screw cap, self-standing, printed graduations, PP, sterile, 25/Bag, 20 Bags/Case	500

10mL Polypropylene

- Tube dimensions: 16 x 80mm

Item #	Description	Unit
6105SP	10mL transport tube with attached white screw cap, self-standing, printed graduations, PP, sterile, 25/Bag, 20 Bags/Case	500
